

Helping the Industry Stay Safe, One Job Site at a Time

WORKSAFE is the nation's first safety program involving a public-private partnership. The Iowa Occupational Safety and Health Administration (Iowa OSHA) and Master Builders of Iowa launched WORKSAFE in September 2012 by offering a safety service that is a customized approach, unique to each project owner and job site team. WORKSAFE is a construction job site safety program that consists of pre-construction planning, job site surveys focused on preventing hazardous conditions from occurring, and job site recognition that safety is a top priority for all involved in the project.

For questions or to enroll a project, please contact Mark Wieland at Mark@IowaCSSI.com / (515) 577-7622.

CLIENT AND PROJECT LISTING As of February 17, 2021
